CLOUD & ORCHESTRATION

AWS Azure GCP
Kubernetes K3s Terraform
ArgoCD Helm Cilium
Cloud Foundry Proxmox-VE
Docker

SYSTEMS & NETWORK

Linux HAProxy Nginx
pfSense BGP/OSPF IPSec
VPN VMware FreeBSD

OBSERVABILITY

Prometheus Grafana
ELK Stack Zabbix Sentry

DATABASES

PostgreSQL · MySQL · Redis
Elasticsearch · MongoDB

COMPLIANCE & FRAMEWORKS

ITILv4 · ISO 27001 · PCI-DSS
AS203544 (created & managed at
Gibmedia)

DEVELOPMENT

Shell · Python · PHP · JS/Node
Git · GitLab CI/CD

EDUCATION

2024
**GCP · K8s Architecture · AI
Masterclass**
Renault Digital — internal

2017
Management & Communication
CNAM · Gibmedia/Mobiyo

DEUST Multimedia & Networks
Panthéon-Assas Paris 2

2005
Multimedia & Network Engineering

PROFILE

Cloud & datacenter leader with 20+ years of experience — from hands-on systems administration to technical management at group level. Expert in designing and operating large-scale hybrid cloud infrastructures (AWS, Azure, GCP, Kubernetes). ITILv4 practitioner. Guides organisations through cloud transformation by combining deep technical expertise, team leadership, budget ownership, and delivery of complex critical projects.

EXPERIENCE

Head of Cloud & Datacenter

Sept 2025 — Present

SAUR · Freelance · Île-de-France

- Technical leadership of cloud and datacenter infrastructure for the group
- Cloud strategy, governance, architecture standards and technical roadmap
- Multi-site team management, talent acquisition, budget ownership
- Vendor management and direct interface with executive leadership

Alliance Cloud Engineer Manager

Jan 2020 — Sept 2025

Renault Digital / SYLPHEO · Boulogne-Billancourt

- Platform operations: Cloud Foundry (PaaS) + Azure infrastructure for connected vehicles — Renault & Nissan
- Deployed centralised Grafana monitoring on AKS — reduced incident resolution time **from 15 days to 48h max**
- Containerisation and right-sizing programme → **cloud costs -30%**
- Recruited and led high-performance technical teams and contractors
- Rearchitected Big Data infrastructure; Azure resource provisioning and cost optimisation

Cloud Manager & On-Prem Infrastructure Manager

Apr 2019 — Dec 2019

Believe Digital · Porte de Saint-Ouen

- Technical management of hybrid infrastructure (multi-datacenter on-prem + cloud)
- Infrastructure audits, evolution proposals, performance and resilience improvements
- Initial AWS deployments — Big Data workloads; on-call management and incident response

Operations Manager & Group IT Director

Apr 2015 — Nov 2018

Gibmedia / Mobiyo · Levallois-Perret

- Designed and built private cloud on **OpenStack + Proxmox-VE across 2 datacenters** for internal and production workloads
- Migration roadmap, agile project management, technical standards and tool selection
- Team management and coaching; recruitment of senior technical profiles; ISO 27001 / PCI-DSS compliance

INSA (INGESUP)

2004

DUT Networks & Communications

IUT du Puy-en-Velay

2002

Bac STI Electrical Engineering

Lycée Jean-Monnet, Yzeure (03)

LANGUAGES

French — native

English — professional

OTHER

Driving licence B

Aviation initiation cert. (BIA 1999)

Open source · Electronics · IoT

Operations Manager

May 2013 — Apr 2015

miLibris · Paris

- In-house **CDN + GeoDNS** serving **8M+ readers** — digital press distribution platform
- Full infrastructure overhaul: migrated to **Proxmox-VE on dedicated OVH servers**
- Database performance optimisation, application profiling, monitoring & alerting stack
- Release lifecycle procedures, security hardening of access

Support & Operations Engineer

Jan 2009 — May 2013

Masternaut · Suresnes

- High-availability infrastructure for embedded fleet telematics solutions
- Monitoring, mail & SMS alert architecture, VPN Roadwarrior, remote site management
- Production process automation, energy backup solutions, on-call management

Systems & Network Administrator

2005 — 2009

EDD · Nexen Services · CVF (Orange) · APRIL · Paris region

- HA web & mail infrastructure, B2B hosting, VoIP (Asterisk administration), Prestashop as a Service
- Monitoring, virtualisation, LDAP/AD, DNS (BIND/PowerDNS), load balancing
- R&D on information systems: PHP CMS, multi-site applications, alumni management
